

8 September 1986

MAU - 6012

MEMORANDUM FOR: Director, FBIS
THROUGH : Chief, Operations Group
SUBJECT : Monthly Report - Austrian Bureau - August 1986

I. GENERAL

1. [] of ADD led a four-man team to install Phase 1B of the Vienna Local Area Network. The bureau now has the capability of capturing, processing, and filing English-language press agency material electronically, a major step forward in automation of the bureau. From the beginning of the operational use of this capability on 25 August to the end of the month, some 7,000 words of English-language press agency material had been processed and filed electronically. Until the delivery of more computers to the bureau, only the East European press agency feed from the Austrian Press Agency is being fed directly onto the VLAN.

STAT

2. The bureau's monitorial supervisory structure was overhauled during the month. The four two-language Units were disbanded. The supervisory slots for these Units were used to create four new supervisory positions: a Deputy Chief Monitor and three Shift Supervisors. It is hoped the new structure will be more in keeping with the way we operate and provide us with more flexibility.

II. OPERATIONS

A. Monitorial/Editorial

1. Data collected in the course of the July economic survey of Romania and Bulgaria, carried out at the request of the BBC, was collated and the results forwarded to Chief/Ops and Chief/London Bureau. There was considerable unique economic information from radio sources, but mostly of a very low level.

2. While total monthly wordage was a low 521,000 words, 22 percent of it was produced on the bureau's computer network, saving teleop rekeying of some 113,940 words.

B. Communications

Despite a considerable number of coordination messages, no final date for the installation of the bureau commo path to Croughton, England has been set. In the meantime, outages (50.5 hours) and general poor performance has continued to plague the existing primary State circuit. On a brighter note, the bureau's use of the

VCVC altroute for its primary outgoing communications path has continued to operate virtually error free, and the BBC agreed during the month to allow the baud rate for this altroute to be increased from the current 75 to 150 baud.

C. Technical

A practically new emergency generator was received from Gulf Bureau early in the month. It will be installed after several rewiring and remodelling tasks are completed in the garage where it will be located.

III. ADMINISTRATIVE

A. Personnel

1. As the dollar continued its decline, the Post's Cost of Living Allowance was increased to 20 percent.

2. Administrative Assistant [] was selected to attend this year's running of the Foreign National Orientation Program in September.

STAT

3. The bureau's TV contractor in Belgrade has left Post, and a replacement has been identified. The bureau is struggling with the administrative complexities of getting the new candidate on the books.

4. Promotions were received by monitor technician [] and Electronics Technician [] Teletypist [] received a QSI.
